

Escondido Union High School District Celebrates Earth Day 2015

EUHSD has saved more than:

2.78 Million kWh of Electricity 1.4 MMBTUs of Natural Gas

These savings are equal to: 790 metric tons of carbon dioxide emissions being prevented, or 165 automobiles being removed from the highways annually, or the amount of CO₂ sequestered by 20,267 tree seedlings planted and grown for 10 years.

Being good stewards of both our money and our environment gives us a great sense of satisfaction as we celebrate Earth Day 2015.

Thank you for all you do to help.
