General Information

[A description of the impact the COVID-19 pandemic has had on the LEA and its community.]

Classical Academy High School is one of seven campuses within The Classical Academies. At The Classical Academies, we constantly strive to provide quality educational options, connections with our community, as well as being available and ready to support our students by partnering with parents. As an Independent Study school in the State of California, all of our students and families were already completing school work from home in combination with learning at school when COVID-19 hit. This enabled us to shift quickly and continue with learning.

As we shifted to the new reality of not coming back on campus for the 2019-20 school year, we coordinated efforts to stay connected and to continue to value learning. We believe that having ongoing communication is a way to keep us grounded, manage expectations, and give families security that our partnership was continuing during this time. Weekly information and updates were released to parents and students from teachers, site leaders, and combined organizational community messages. Through email, phone calls, and video updates, students and families were encouraged to stay in touch with teachers, remain engaged in daily learning, and services and support continued while in distance learning. We saw an average of 95% engagement by the end of the year.

- On March 13, 2020 we honored the Executive Orders and Shelter in Place, by closing all sites, but allowing full access to all learning platforms and materials without introducing new content.
- Students were given the opportunity to check out school chromebooks to assist with distance learning.
- Beginning on March 30, 2020, we were able to provide structure, flexibility, and touch points for families as they engaged with 100% distance learning including new content.

As the school year neared its end, we turned our focus to the 2020-2021 school year and we began surveying all stakeholders:

- Parents were asked what worked well and what needed improvement during distance learning, as well as what supports they needed to be more successful.
- All employees were asked for their input on returning to school plans including their preference for being back on campus and working from home. They were also asked about how health guidelines might influence their preferences. Additionally they were given the option to share concerns and questions in a short answer format.
- Parents were asked in a separate survey their preferences on returning to school in the Fall of 2020 including preferences for programming options including rating three options - regular programming, blended learning, distance learning. Parents were also asked about the health guidelines and how those might impact their decision to return to campus once schools opened.

All of the information gathered through the surveys, the county's health guidelines, SDCOE & CDE's guidelines were used to create plans for the 2020-2021 school year. At the end of June, we introduced our two reopening plans with our community. Plan A was to reopen with pre-COVID programming when allowed. Plan B was to offer a modified schedule that would allow limited time on campus for small groups, while honoring all health mandates.

distance learning through October 2, 2020, after which point we will assess what is best for our community moving forward.

As we assess our next steps we will again survey families and employees as many elements have changed since we surveyed them in May & June. This information along with the current health guidelines will be used to refine our Plan B, blended learning model.

Stakeholder Engagement

[A description of the efforts made to solicit stakeholder feedback.]

As an Independent Study program, electronic communication with our families is a regular part of school. We have regular communication with families through a weekly email. In addition, teachers interact with families through email and our Learning Management System, Schoology, frequently each week. Every year, all families with connectivity issues are assisted and supported as they begin school with us. Any families who had additional issues due to COVID were connected and supported. One of the primary ways we accomplished this was by distributing school issued chromebooks within the first two weeks of distance learning. Again as an Independent Study program with schooling already happening at home, support was already in place for families whose primary language is not English.

As we gathered input from families, Google surveys were created and distributed to families using our distribution lists and regular communication channels. There were three surveys distributed:

In May 2020 Classical Academies asked for parent input to help understand our families programming preferences as we developed plans for the return to school in the fall. 66% of our families responded to the survey.

In June 2020 we asked all employees for feedback on working from campus and from home, as well as input on health guidelines and concerns.

In June 2020 we asked for feedback on the March - June 2020 educational experience. Parents of students in all grades were asked for feedback on what went well and what needed improvement with distance learning. They were also asked what additional supports were needed to improve the learning environment.

The information gathered in the programming survey, the employee survey and the educational feedback survey were reviewed by the leadership teams as we developed plans for Fall 2020.

[A description of the options provided for remote participation in public meetings and public hearings.]

Board meeting dates, agendas, and minutes are posted on The Classical Academies website. Notices are posted at school sites and during the closure, notices of board meetings were shared in our weekly email update to the whole school community. Remote access to board meetings are listed at the top of each agenda which are publicly available on the school's website. During the meeting those who wish to make public comment are given directions on how to notify the moderator of the meeting of their desire to speak and on which topic they wish to make a public comment. The same procedure is followed for public hearings.

[A summary of the feedback provided by specific stakeholder groups.]

Feedback from Programming Options Survey:

- 66% of our families prefer to return to our traditional blended learning environment.
- 17% of our families prefer a modified version of our traditional blended learning model.
- 8% of our families would prefer independent study at home exclusively.
- 11% of families indicated they would not be able to return to any campus based activities due to health concerns.

Feedback from Employee Survey:

- 58% were comfortable returning to campus or office
- 96% were confident that their personal feelings about the pandemic were being taken seriously and being taken into consideration as plans are being developed

Feedback from Educational Experience Survey:

What went well:

- Communication from school/teachers and flexibility to help with a variety of

- Chromebooks provided to students to do distance learning
- Distance Learning courses remained academically rigorous and challenging for students

What needs improvement:

- More connection between students and between teacher and students
- Higher levels of accountability for all students
- More interaction with elective classes during distance learning
- Google Meet did not provide the functionality that Zoom now provides
- Consistency amongst all classes and virtual support

[A description of the aspects of the Learning Continuity and Attendance Plan that were influenced by specific stakeholder input.]

As plans were created for Distance Learning this fall the following feedback was incorporated into those plans.

- Additional overview videos were added to help students and parents understand how to navigate distance learning obstacles
- Permissions and signatures are now collected digitally
- Live instruction sessions are scheduled and predictable
- Teachers may add student names to a CALL HOME spreadsheet if the student is not attending live classes or not turning in assignments. Someone from the office team then calls home to speak with the parents and then relays the parents' response back to the teacher via the spreadsheet. The goal is to keep students accountable and from falling behind.
- The format of teacher Schoology pages was standardized to make finding assignments and links more clear
- Teachers may teach from their classrooms or from home during distance learning

Continuity of Learning

In-Person Instructional Offerings

[A description of the actions the LEA will take to offer classroom-based instruction whenever possible, particularly for students who have experienced significant learning loss due to school closures in the 2019–2020 school year or are at a greater risk of experiencing learning loss due to future school closures.]

We reviewed parent feedback, San Diego County health guidelines, and educational best practices, as we developed plans for Fall 2020. We have two options for In-Person Instruction. The health and safety guidelines at the time of reopening will determine which plan will be implemented.

Plan A: Return to our regular blended "pre-COVID" programming. As an Independent Study program, our regular programming offers a blend of on campus instruction with at home instruction.

Plan B: This is a modification of our regular blended model. The number of students on campus is limited in this plan, due to social distancing guidelines, and the physical size of classrooms. Student academic needs, social emotional needs will also be taken into consideration as plans for student time on campus are created. This plan will be evaluated and adjusted with the goal to continually increase student time on campus as allowed per the healthy and safety guidelines. Initially it will build on our full distance learning program by bringing small groups of students for targeted instruction to campus.

When students return to school, student health and safety will be a very high priority. Classrooms will be provided with disinfectant, hand sanitizer, and masks. Site maintenance and custodial crews have installed multiple sanitizing stations at each campus. We have increased the cleaning and sanitizing schedules of restrooms, classrooms, multi-purpose rooms, lunch areas, and frequented public spaces such as school offices. Plans for entrance and exit of the school building, classrooms, lunch areas and restrooms are being established and proper signage is being ordered. We will provide videos on proper handwashing, mask wearing, and social distancing expectations before school reopens and again in the classroom once students return.

Another area of concern will be student's social/emotional health. As students return to campus, teachers will spend classroom time to connect students with their peers through group activities, student groups, clubs, etc. Before students return to campus, school counselors will provide social/emotional awareness training to all school personnel as student connections are not only with classroom teachers.

Description	Total Funds	Contributing

Distance Learning Program

Continuity of Instruction

[A description of how the LEA will provide continuity of instruction during the school year to ensure pupils have access to a full curriculum of substantially similar quality regardless of the method of delivery, including the LEA's plan for curriculum and instructional resources that will ensure instructional continuity for pupils if a transition between in-person instruction and distance learning is necessary.]

With the current Executive Order and health mandates in place, we will begin the year with Plan C at least until October 2, 2020, after which point we will assess to determine our next steps. We will monitor state and county guidelines to determine when we can shift from Plan C to Plan B, our blended model, and eventually to Plan A, which is regular programming.

Here is a brief overview of Plan C and the elements it contains to support our students:

Plan C: Distance Learning

For students enrolled at Classical Academy High School

- School days will be a blend of synchronous “real time” classes and asynchronous work assigned through Schoology and/or Summit.
- Each week targeted support will be offered. Most of this support will be offered in a synchronous format.
- Each week intentional time during synchronous learning will be devoted to building community and making student connections.

For students enrolled in Independent Study

- Schoology lessons will be provided with step-by-step lesson plans
- Educational Specialists are available to support

Clubs & Activities

- Students in grades 9-12 will continue with pre-established clubs and ASB via Distance Learning. Campus specific updates will be given in the first few weeks of school.

Parent Support

- August 13, 2020 was the Annual Jumpstart Parent Education Conference. It is designed to inspire, connect, and motivate parents as they kick off the school year! The conference featured a keynote address and educational breakout sessions.
- Several how-to videos were created to show parents how to navigate Schoology, complete Reading Logs, and support their student during distance learning.
- Parent Orientations and Coffee Chats are another way to learn about each campus. Look for more information once school begins.

Special Education

- Most IEP Services will be synchronous “real time” sessions. Some services may be provided as pre-recorded lessons.
- IEP Meetings will be held via Google Meet
- Case managers will reach out to families before the school year begins to discuss a student's service schedule

As an Independent Study program, we already have curricula, both physical and digital, that support a blend of learning at home and at school. All students have received the necessary curriculum for the 2020-2021 school year's grade or specific subject area. Physical curriculum has been checked out to families as it is every year to be used at home. We have added chromebooks to the curriculum check out list as devices are requested.

As we move from Plan C to Plan B to Plan A, the curriculum will stay consistent in each model with families having full access all year to the materials they need.

Access to Devices and Connectivity

A technology survey was sent out to all families to assess and evaluate the number of students needing technology. The ongoing results of the survey allowed us to coordinate the pick up of computers on specific dates and times for all students, including English learners, foster youth and low-income students. Connectivity issues are also being addressed case by case, just as we do every year.

Pupil Participation and Progress

[A description of how the LEA will assess pupil progress through live contacts and synchronous instructional minutes, and a description of how the LEA will measure participation and time value of pupil work.]

As an Independent Study program, time value is built into our Master Agreements and Assignment & Work Record forms. We will measure participation and time value based on these Independent Study documents just as we do every year.

While in distance learning, teachers will be offering live instruction on the days the students would typically be on campus. The rest of their school day will be asynchronous and delivered through our LMS, Schoology. The live instruction is as follows:

Students enrolled at the Studio Campus have the following schedule-

Mondays:

80+ minutes of asynchronous lessons per course including video lectures and written assignments.

Tuesday, Wednesday, and Thursday:

Period 0: 8:00-8:40 am (with 40+ minutes of asynchronous videos & assignments posted for the afternoon)

Period 1: 8:50-9:30 am (with 40+ minutes of asynchronous videos & assignments posted for the afternoon)

Period 2: 9:40-10:20 am (with 40+ minutes of asynchronous videos & assignments posted for the afternoon)

Period 3: 10:30-11:10 am (with 40+ minutes of asynchronous videos & assignments posted for the afternoon)

Period 4: 11:20-12:00 pm (with 40+ minutes of asynchronous videos & assignments posted for the afternoon)

Fridays:

Period 0: 7:25-8:45 am (80 minute live classes)

Period 1: 8:50-10:10 am (80 minute live classes)

Period 2: 10:15-11:35 am (80 minute live classes)

Lunch Break: 11:35-12:10 pm

Period 3: 12:15-1:35 pm (80 minute live classes)

Period 4: 1:40-3:00 pm (80 minute live classes)

Students enrolled at the Personalized Learning Campus have the following schedule-

Mondays:

Asynchronous lessons provided through the Summit Learning platform, including power focus areas, checkpoints, and projects.

Tuesday, Wednesday, and Thursday:

Period 0: 7:45-8:45 am (synchronous classes & office hours)

Period 1: 8:50-9:50 am (synchronous classes & office hours)

Period 2: 9:55-10:55 am (synchronous classes & office hours)

Period 3: 11:00-12:00 am (synchronous classes & office hours)

Afternoons include content assessments and mentoring

Friday:

Office hours 9:00-12:00 pm

Parent Power hours 9:00-12:00 pm for additional parent support

school, and they will work with students as needs arise in a virtual setting.

Distance Learning Professional Development

[A description of the professional development and resources that will be provided to staff to support the distance learning program, including technological support.]

As teachers returned to work a two hour professional learning session on Distance Learning tools was offered for all teachers including special education teachers, support providers and leaders. The professional learning started with a whole group session on Zoom and then breakout sessions were offered on virtual classrooms, breakout rooms in Zoom, video and editing techniques, and asynchronous learning tools such as slide deck voice overs.

Throughout distance learning weekly updates on distance learning tools will be given in an asynchronous manner allowing the teaching teams to access these resources as they have the time and capacity to build their skills.

As a Professional Learning Community school, we will continue to build on our work to implement PLC's in order to ensure that ALL students learn, no matter who they are or where they come from or what challenges they have! We know it will be challenging to continue this collaborative work while we are distanced from one another, but we are committed to the process. In late September we will have a 4-hour professional learning day with a presenter from Solution Tree on PLC's. Our goals for this day are to calibrate everyone's definition of PLC's, refine what collaboration looks and sounds like, and use group work to determine next steps at the school level. This will also be used to determine content for future professional learning. Especially with distance learning, we need to be better at the PLC process to ensure we know which students have mastered the standards and which students have not yet mastered the standards. No matter the model of delivery, the goal is the same, learning for ALL.

Staff Roles and Responsibilities

[A description of the new roles and responsibilities of affected staff as a result of COVID-19.]

As an Independent Study program, Classical Academy offers a unique partnership with parents and credentialed teacher support on and off campus. Teacher roles and expectations are defined during virtual learning as the following:

- All teachers will be available via email and Schoology during regular school hours, Monday through Friday, with the goal of responding within 24 hours. Part-time teachers are expected to be available during their regular teaching time.
- Studio teachers will teach live lessons 4 days per week and will also post asynchronous video lectures and assignments.
- Full-time teachers and part-time core teachers with regular face-to-face classes, will send a weekly email or post a video to check-in, give a weekly overview and/or encouragement to students - no more than 10 minutes if using video.
- Lesson plans for students will be posted no later than 9:00 am on Monday, so students have access to a full week of lessons.
- Specialists - reading, literacy, math, writing, intervention - will set up weekly sessions for synchronous learning modeling the times and structure from when students were on campus.
- ES's, IS, Online teachers -
 - These teachers will continue to support families as usual.
- Teachers will regularly (virtually) check in with any family/students who are on an accountability plan/action alert.

Special Education Services

- IEP meetings will still be held via Google Hangout/Teleconference.
- SPED service providers will be communicating with students/families to schedule synchronous services.

Student/Parent/Teacher conferences

- Per the Master Agreement, conferences will be held virtually or in person depending on the current health guidelines every 9 weeks in grades 9-12

[A description of the additional supports the LEA will provide during distance learning to assist pupils with unique needs, including English learners, pupils with exceptional needs served across the full continuum of placements, pupils in foster care, and pupils who are experiencing homelessness.]

During distance learning, we will meet the needs of pupils with unique needs just as we do in a regular school year. As an Independent Study program, we already have support for our English Learners, pupils with exceptional needs, foster and homeless youth incorporated into our Independent Study programming. As we continue with distance learning, we will increase our weekly contact with the families of our pupils with unique needs. We will increase the amount of time the students have access to the teacher, through live sessions, as well as parent support for the student's asynchronous learning time. We offer small group support and services for Special Education students during the regular school year and this will continue with a mix of synchronous and asynchronous instruction.

As plans are made for students to return to campus, these students will be some of the first groups of students we will bring back to campus for small group instruction and assessment to determine present levels.

Actions Related to the Distance Learning Program [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing
[A description of what the action is; may include a description of how the action contributes to increasing or improving services] Chromebooks, Zoom licenses, & Nearpod	\$37,810	[Y/N]
[A description of what the action is; may include a description of how the action contributes to increasing or improving services]	[\$ 0.00]	[Y/N]

Pupil Learning Loss

[A description of how the LEA will address pupil learning loss that results from COVID-19 during the 2019–2020 and 2020–21 school years, including how the LEA will assess pupils to measure learning status, particularly in the areas of English language arts, English language development, and mathematics.]

To help increase educator efficacy and enhance learning for all students we have continued our work as professional learning communities (PLC). Educators meet in grade-level teaching teams, school committees, and departments to ask three essential questions:

- What do we want each student to learn?
- How will we know when each student has learned it?
- How will we respond when a student experiences difficulty in learning?

These questions drive our decision making and services being provided for all students. Regardless of the method of instruction, distance learning or in person, measuring growth or learning loss is assessed in a variety of ways including math readiness testing, reading foundational skills, formative and informative assessments. Through interventions, educational specialists and teachers are able to provide support to students who have shown signs of learning loss or struggles with more traditional pacing. Using a response to intervention (RTI) multi-tiered approach, students are identified, supported, and have ongoing assessment. Foundational classes are held to further support student progress and learning, as well as providing consistent progress monitoring.

Pupil Learning Loss Strategies

[A description of the actions and strategies the LEA will use to address learning loss and accelerate learning progress for pupils, as needed, including how these strategies differ for pupils who are English learners; low-income; foster youth; pupils with exceptional needs; and pupils experiencing homelessness.]

As an independent study program, our regular curriculum includes assessments that are used to determine academic progress. The PLC process provides the format to identify students with learning loss. It also includes collaboration with grade level teachers to create next steps with the identified students. Those next steps identify the strategies to use, methods to measure progress, and a timeline for review of progress. Based on the formative assessment data, students who have significant gaps will be referred to the Response to Intervention teams for targeted summative assessments. The teacher & RTI

Instruction with the ELD Provider will occur at least once per week. The length of time will be determined by grade - 9th -12th grade 45-60 minutes. This will be combined with targeted independent work to complete each week. Their progress is measured weekly during their small group session. For Special Education students their IEP determines the frequency and types of services and supports, as well as the frequency of goal progress monitoring.

Effectiveness of Implemented Pupil Learning Loss Strategies

[A description of how the effectiveness of the services or supports provided to address learning loss will be measured.]

Students with identified learning loss in areas of reading and/or math are enrolled in courses called Reading Foundations or Math Foundations and/or Math Lab. Reading and math specialists work closely with students on a daily basis to remediate learning loss and assess their progress weekly via benchmark tests to determine the rate of progress. Students in Reading Foundations remain in the course until they can successfully read at an 8th grade level in several consecutive assessments. Most students graduate out of their Reading Foundations course in 5-8 months. Students in Math Foundations and Math Lab are given one-on-one instruction in their areas of learning loss until they have the prerequisite math skills to be enrolled in Math I (Algebra 1). Students who continue to require a slower paced math course are enrolled in an online non A-G math series called Teaching Textbooks which allows students to progress at their own mastery pace with a teacher who is available in the classroom for one-on-one tutoring at any time. Students in this program can progress through traditional math courses from Pre-Algebra to PreCalculus.

Actions to Address Pupil Learning Loss [additional rows and actions may be added as necessary]

Description	Total Funds	Contributing
[A description of what the action is; may include a description of how the action contributes to increasing or improving services] RTI Specialists, including reading and math foundation teachers and support.	\$412,126.72	[Y/N]

Mental Health and Social and Emotional Well-Being

[A description of how the LEA will monitor and support mental health and social and emotional well-being of pupils and staff during the school year, including the professional development and resources that will be provided to pupils and staff to address trauma and other impacts of COVID-19 on the school community.]

Student’s social/emotional health is a priority. During distance learning the school’s social emotional counselor is sending weekly videos to all students. The focus of the videos will be around the monthly campaigns designated by The Classical Academies counseling team and will be geared to the grade levels of each campus. As an Independent Study program with students on campus and at home, we have a well established referral system which we will continue to use to support students in need. Students in need will meet with the counselor in a virtual one-on-one session. Each year, school counselors will provide social/emotional awareness training to all school personnel as student connections are not only with classroom teachers. The impact of social distancing and isolation will be additional topics to address with all.

Pupil and Family Engagement and Outreach

[A description of pupil engagement and outreach, including the procedures for tiered reengagement strategies for pupils who are absent from distance learning and how the LEA will provide outreach to pupils and their parents or guardians, including in languages other than English, when pupils are not meeting compulsory education requirements, or if the LEA determines the pupil is not engaging in instruction and is at risk of learning loss.]

As an Independent Study program we have policies and procedures in place for students who are not engaged with learning. Our procedure starts with an Accountability Plan which identifies the issues and creates a plan for what each person in the partnership, student, parent, and teacher will do to support the student as changes are made. The frequency of monitoring is established in the Plan. and is

a daily check in. Determining the core issues of the challenges the student faces, determines the next steps. For some students, it could mean a referral to a Student Study Team (SST) meeting, additional foundational support, or office hours with an intervention specialist. The SST meeting consists of teachers, an administrator, the parent(s), and support personnel from the school. The student's academic, behavioral, and social-emotional progress is discussed and an action plan created and a follow up meeting is scheduled. As an additional safeguard, we send out D/F letters halfway through each quarter to the parents of any student who currently has a D or an F in one of their courses.

School Nutrition

[A description of how the LEA will provide nutritionally adequate meals for all pupils, including those students who are eligible for free or reduced-price meals, when pupils are participating in both in-person instruction and distance learning, as applicable.]

Under the State statute, AB 1871, we provide meals if an eligible student is at a school site or meeting space for an educational purpose for two or more hours. As a non-classroom based charter school, this is not applicable for us during distance learning. Once students return to school, we will again distribute meals.

Starting in March 2020 when schools closed we have consistently sent families information about local food distribution centers.

Additional Actions to Implement the Learning Continuity Plan [additional rows and actions may be added as necessary]

Section	Description	Total Funds	Contributing

[The section of the Learning Continuity Plan related to the action described; may put N/A if the action does not apply to one specific section]	[A description of what the action is; may include a description of how the action contributes to increasing or improving services] N/A	[\$ 0.00]	[Y/N]

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Percentage to Increase or Improve Services	Increased Apportionment Based on the Enrollment of Foster Youth, English Learners, and Low-Income students
3.08%	\$357,944

Required Descriptions

[For the actions being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the needs of these students.]

Classical Academy High School, having 22.3% enrollment of unduplicated pupils, is expending funds on a schoolwide basis to include all unduplicated students. Both goals and actions are aimed toward increasing student academic achievement of all students and engaging parents and community partners through education, communication and collaboration to promote student social-emotional success.

As plans for the 2020-2021 school year were developed, services for homeless & foster youth, English learners, and socio-economic disadvantaged students were

[A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.]

Students who have been identified as socio-economic disadvantaged scoring below standard in Math and English Language Arts will be assessed using math readiness testing and reading assessments. Students with an achievement gap are assigned supplemental learning tools and services with the math and/or reading specialists.

Low-income students represent our largest performance gaps. To address low social economic concerns, we will increase support with Response to Intervention (RTI), and access to specialists for support and increase professional development.
