## Services Available:

### Expert Second Opinion Service

A Review of Your Medical Case by a World-Leading Doctor

The Best Doctors **InterConsultation**<sup>®</sup> service lets you get a second opinion from one of the world's most well respected doctors. We match your case to the most appropriate medical expert, who reviews your diagnosis and treatment plan in great detail. You don't visit a doctor or leave home. Just give us permission to collect your medical records and we do the rest—in complete confidence, at no cost.

You'll receive an in-depth, easy-to-understand report with our expert's opinions and, if necessary, recommended changes. Even if your medical condition doesn't seem serious at the time, it's worth calling Best Doctors just to be sure.

### Critical Care Support

Expert Second Opinions for Catastrophic Medical Events

The Critical Care Support service lets you call on a Best Doctors expert for guidance during accidents or medical events that require emergency treatment, intensive care or extended hospital stays. After you call Best Doctors, an expert immediately gets involved in your case, working with your local medical team to provide his or her recommendations. It's an early-intervention version of InterConsultation<sup>®</sup> specifically for extreme situations. So you can be sure that the right decisions are being made when time is critical.

### Ask the Expert™

Fast Answers to Your Medical Questions

A brief doctor's visit doesn't give you enough time to get all your questions answered. And the Internet can be confusing and scary. The next time you have questions about a medical condition or treatment, ask an Expert. With Best Doctors Ask the Expert™ service, you can discuss your questions and concerns with a nurse over the phone. Then the nurse will share them with the most appropriate Best Doctors specialist. You'll quickly receive the Expert's written answers in an easy-to-understand report. No needless worrying, wondering or wandering the web.

### Find a Best Doctor™

Finding a Best Doctor, local to you.

The exclusive Best Doctors database is made up of the top 5% of physicians in the US. Each Expert has been peer nominated and designated as the best by other doctors in a Gallup<sup>®</sup>-certified process. While many of our Experts are located near major teaching facilities and centers of medical excellence, Best Doctors is happy to search our database on your behalf for a specific specialist who meets your search criteria.
